Become a member of the BioNTech Family!

Lead Scientist* Infectious Disease Vaccines

The BioNTech Family

As a part of our team of more than 1,500 pioneers, you will play a key role in developing solutions for some of the most crucial scientific challenges of our age: Amongst multiple programs in the pipeline, we are conducting research on a Covid-19 vaccine in our project “Lightspeed” based on our mRNA-technologies. Furthermore, we are pioneers in the development of individualized cancer therapies and in the combat against other diseases.

We aim to achieve life-changing successes for patients by being innovative, passionate and united, so get in touch with us if you are looking to be a part of creating hope for a healthy future in many people’s lives.

At BioNTech, you will support projects within the IDV unit. As part of our team, you will be involved in the processing from early non-clinical development towards clinical studies and thus make a decisive contribution to the development of innovative strategies against infectious diseases.

Your main responsibilities are:

- Scientific project responsibilities with focus on *Mycobacterium tuberculosis*
- Design, implementation, analysis and presentation of immunological studies within the R&D product development
- Establishment of new process-relevant methods and training of team colleagues
- Project-related literature search, regular reporting (internal + external)
- Working in infection biology (BSL2)
Have we kindled your pioneering spirit?

Then apply now and simply send us your application documents using our online form.

If you have any further questions, Sarah Huber will be happy to answer them on +49 (0) 6131-9084-1291 (monday-friday, from 12 noon).

*BioNTech does not differentiate on the basis of gender, race, religion, color, origin, sexual orientation, disability, age and other protected status as required by applicable law. We are committed to creating a diverse environment and are proud to be an equal opportunity employer.

BioNTech - As unique as you
