CHALLENGES IN TUBERCULOSIS
A SPECIAL COURSE OFFERING AND LECTURE SERIES

M3D MOLECULAR MEDICINE & MECHANISMS OF DISEASE

TRTC TUBERCULOSIS RESEARCH & TRAINING CENTER
UNIVERSITY of WASHINGTON

Molecular Medicine 504 Seminar/Course co-sponsored by M3D & the TB Research & Training Center (TRTC)
12:00-1:00 PM, Brotman Auditorium, SLU
These talks are being recorded, and available here: https://bit.ly/2IynbzS
For questions, contact m3d@uw.edu

April 29– Willem Hanekom
Bill & Melinda Gates Foundation
Recent Breakthroughs in TB Vaccine Development

May 6 – David Sherman
UW
TB Systems Biology: Tools to Take On A Killer

May 13 – Kevin Urdahl
Seattle Children’s
T cell-mediated immunity in the TB granuloma

May 20 – Tanya Parish
Infectious Disease Research Institute
How Biology Informs Tuberculosis Drug Discovery
